2ND ENVIRONMENTAL CHARTER OF THE SOCIÉTÉ DES BAINS DE MER

2013-2016 PERIOD

THE ACTIONS IN DETAIL 39 actions for you, or us, for the environment!

ENVIRONMENTAL MANAGEMENT & CERTIFICATIONS

1. Implement an Environmental Management System, compliant with the Grenelle II environmental legislation, with regular reporting on relevant CSR topics.
2. Deploy a specific charter per establishment emphasising the commitment and perspectives of the Group's main entities.
3. Obtain the Green Globe label for several of the Monte-Carlo SBM Group's sites.
4. Maintain the "Imprim'Vert" (Green Printing) label for the SBM printing works.
5. Implement ISO 14001 for the Thermes Marins.
6. Operate in harmony with local collective actions and charters (in collaboration with the Prince Albert II Foundation, the Tourism and Convention Directorate and the Government).
7. Apply the BREEAM reference standard to new building projects

INFORMATION, AWARENESS-RAISING AND INVOLVEMENT OF STAKEHOLDERS

8. Continue to raise the awareness of the Group's specialists and involve them in environmentally friendly actions
9. Promote the Group's actions under the "Be Green Monte Carlo" banner and inform the clientele
10. Disseminate our Ethics Charter to the Company's suppliers. Capitalise on relevant environmental initiatives and developments.

MAITRISE DE L'ÉNERGIE

11. Continue to raise the awareness of the Group's specialists and involve them in environmentally friendly actions
12. Promote the Group's actions under the "Be Green Monte Carlo" banner and inform the clientele
13. Promote behaviours that allow for more moderate use of energy.
14. Consolidate our environmentally friendly energy production policy.

MANAGEMENT OF WATER CONSUMPTION

15. Monitor water consumption in detail.
16. Install water-efficient equipment.
17. Use water sustainably for outside cleaning, dishwashing and watering green areas.

AIR, ATMOSPHERE AND TRANSPORTATION

18. Control and reduce refrigerant leakage.
19. Prioritise clean vehicles and install electrical charging points.

20. Prioritise alternative modes of travel for employees' journeys.

21. Perform an annual Carbon Balance assessment in order to measure the changes in the carbon footprint of SBM's activities (levels 1 and 2 as a priority).

BIODIVERSITY

22. "Zero Phyto" policy to limit the use of plant disease control products and favour biological controls.
23. Maintain the policy of not buying any Bluefin tuna.
24. Contribute to establishing bee hives in order to support local honey production. Use a bio-indicator - the bee - to monitor the overall quality of our environment.

RESPONSIBLE PURCHASING

25. Prioritise products with ecolabels or environmental labels.
26. Support the "Monaco makes a commitment against deforestation" programme; purchase and use FSC or PEFC wood and wood-based products.
27. Purchase textiles and food products through Fair Trade channels.
28. Prioritise organic, local and seasonal products for the food purchasing sector.

WASTE COLLECTION AND SELECTIVE SORTING

29. Optimise paper collection and implement paperless communications.
30. Optimise glass collection and seek economical channels and transportation.
31. Optimise the collection of batteries from customers and within the company.
32. Optimise waste electrical and electronic equipment (W.E.E.E) collection.
33. Optimise the collection of ink cartridges.
34. Optimise the collection of compact fluorescent lamps and tubes.
35. Trace and store dangerous products and wastes in secure areas compliant with environmental risk prevention and safety rules and dispose of them through specific processing channels.
36. Optimise the collection of residual wastes.
37. Optimise the collection of cooking oils.
38. Optimise the collection of edible fats.

SUSTAINABLE BUILDING AND RENOVATION

39. Target eco-designs in the preliminary stages of projects through the systematic application of the BREEAM reference standard.
