## I. Monte-Carlo Société des Bains de Mer, an innovative experience

In the early 2000's, tourism development and the Principality's attractiveness lead the Monte-Carlo Société des Bains de Mer Group to increase its hotel capacity. Avant-garde and anxious to preserve its reputation for excellence, the brand imagines a hotel concept new to Monaco, remaining within the Mediterranean Palace codes of neo-classical architecture featuring arches and colonnades. In 2005, a new sumptuous establishment rises from the sea: the Monte-Carlo Bay Hotel & Resort, celebrating its 10<sup>th</sup> anniversary in 2015.

Modern contemporary development requirement demand a high technical level as the hotel is completely designed on the sea. The project led by Brussels based architecture practice, l'Atelier d'Art Urbain and Monegasque architect Louis Rué, developed the idea of an 'L' shaped building with three towers benefiting from optimal orientation on the Mediterranean Sea. A magnificent peninsula, the Monte-Carlo Bay Hotel & Resort can now meet the demand of a clientele in search of quality, comfort and modernity. It offers a chic and casual atmosphere, conducive to relaxation and escape.

*Where our spirit meets your style*

A unique development in Europe, the sandy-bottomed lagoon meanders through the hotel gardens. This exceptional lagoon meanders between the terraces, waterfalls, kiosks and green islets that follow. The latter, designed by famous landscape architect Jean Mus, are an invitation to relaxation. Surrounding the lagoon, up to 1500 plants of different species and varieties indigenous to exotic environments, thrive. Four influences permeate the scene: Mediterranean, with olive trees and cypresses, Tropical with palm trees, Italian with orange trees sublimated by terra cotta and finally Mexican with cacti blended with the rockery. The meticulous selection of plants, flowers and shrubs was guided by colors, foliage and texture harmony, but also by the marriage of scents. At the heart of this peaceful haven created to resemble a private residence, every detail is directed to the awakening and exaltation of the senses. The smell of jasmine impregnates the terraces and solariums, heightening moments of peace and tranquility. On the edge of the pool, waterfalls and their sweet music create an enchanted mood amongst the orange, lemon and mandarin trees, sharpening desires. Not to mention ornamental plants called 'birds of paradise', flowering throughout the winter, extending the pleasure of the eyes. With the creation of these gardens, the Monte - Carlo Société des Bains de Mer inaugurated 150 years ago: gardens, groves, pavilions, footpaths are carefully designed to create a dramatic change in scenery, and an idyllic setting.

## II. Frédéric Darnet, General Manager

After having obtained an MBA in Hotel Management and Finance from the Glion Institute of Higher Education, Frédéric Darnet continued to study Marketing and Management at the prestigious Cornell University in the US. Following which he became Operations Manager of the Nice Acropolis complex, managed by the Accor group. He next took up the management position of the Novotel Coralia Chamonix before managing the Carnac Centre in Brittany. His experience and his vision, whereby he aims to unite hospitality and luxury thalassotherapy, led him to work in Corsica and Sardinia where he managed the Porticcio site, the Coralia Club Marina,

and the opening of the Sofitel Timi Ama, respectively.

In 2003, after having launched the France Thalasso Operations at the Paris Accor head office and participated in the opening of foreign sites, Frédéric Darnet stepped down in search of new horizons such as aeronautic negotiation and even televisual communication. With extensive experience and strong determination Frédéric Darnet is constantly on the lookout for new challenges. A top athlete he takes challenges in his stride with an approach and essential values drawn from his sporting experience, such as rigour and respect for human values. In 2006 he joined the Monte-Carlo Société des Bains de Mer Group and took over the management of the Thermes Marins Monte-Carlo, which has become a benchmark establishment as a pioneer in new technology in preventive health care, wellbeing, and beauty.

Within the Société des Bains de Mer, Frédéric Darnet actively participated in the management of innovative projects such as the organisation of the unmissable Boxing Bonanza tournaments, the launch of the Monaco 24/7 casinos and the development of the Cercle de Monte-Carlo loyalty card. His ideas and enthusiasm also led him to manage La Rascasse, a bar located at the port of Monaco that just has to be visited.

Currently the Monte-Carlo Bay & Resort Senior Management is making the most of Frédéric Darnet's humility, generosity and managerial skills. He is putting his stamp on the place in order to ensure it a promising future full of innovation.

### III. Accommodations and luxury amenities

Monte Carlo Bay Hotel & Resort's architectural exploit deserves to be praised as it includes 334 rooms and 22 suites, becoming a holiday destination as well as a conference centre. Group Monte-Carlo Société des Bains de Mer successfully created double purpose of the venue by combining both work and pleasure. The unique and timeless interior design, created by Pierre-Yves Rochon, blends pure captivating and vividly coloured Riviera lines in the design. Breaking away from the exterior style and the three 11 storey towers, the architect subtly works with elegance of volumes and perspectives, creating a harmonious vision and bright, comfortable, intimate spaces. The atmosphere is simultaneously welcoming, warm and contemporary.

The furniture was selected from the most exclusive brands in contemporary design. Its role confirms the hotel's positioning as innovator with, for example, Starck mirrors, chairs from a Poltrona Frau limited edition or chilled marble furniture, custom-made by Zunino Marmi. The rooms and suites are designed in a style reflecting timeless elegance and refined style, represented by the Ligne Roset collection, reflecting a sense of warmth, pleasure, beauty and lightness.

## The Rafael Nadal Suite

On Monday 16th April in Monaco, the Monte-Carlo Société des Bains de Mer group inaugurated the Rafael Nadal Suite at the Monte-Carlo Bay Hotel & Resort, in presence of HSH Prince Albert II. This inauguration comes during the 112th edition of the Rolex Monte-Carlo Masters, and the 90th anniversary of the prestigious Monte-Carlo Country Club.

The Monte-Carlo Bay Hotel & Resort, official hotel of the Rolex Monte-Carlo Master, honors a tennis legend, that of the number 1 ATP player, Rafael Nadal, who offers his name to the suite, in which he has been himself staying. This 92m2 suite looking onto the sea is in the image of the champion: elegant, discreet and inspirational. The decoration is inspired by the sports universe of Rafael Nadal, Discreetly enhanced with the cult objects that have marked the career of this exceptional champion – racket, T-shirt, tennis shoes that helped him win, and other photos immortalising his 10 victories in Monaco.

For Frédéric Darnet, General Manager of Monte-Carlo Bay Hotel & Resort:

*“Rafael Nadal is a prestigious guest, particularly well-liked and awaited at the hotel. He embodies all of the values we stand for: excelling oneself, humility, simplicity. We therefore wanted to show our respect and pay homage by naming this suite after him. He modestly accepted, and we would like to thank him”.*

#### IV. Wellness and leisure facilities

##### The swimming pools and the lagoon

Beneath its glass cupola, the pool, which is heated to 29°C, offers an exotic atmosphere. Surrounded by palm trees and jacuzzis, it takes the magic outside and then transforms into a lagoon with a white sand bottom (not heated, open from May to September).

The latter is decorated with three small wooden bridges that straddle the terraces. The arched shape of these footbridges and their rails was inspired by Japanese bridges; in association with the abundant vegetation, the setting might be compared to the Mediterranean 'water gardens' to be found in masterpieces by Claude Monet. Other influences also blend into the landscape. The polygonal gazebos are redolent of Oriental décors, shading the jacuzzi or acting as a garden pavilion nestled between two bridges. It is a pure wellbeing area for making the most of the French Riviera's gentle temperatures the whole year round, and enjoying an elegant, relaxed stay. In July and August, a children's club is available to 3-12 year-olds, offering many activities such as: boules games, ping-pong, drawing, painting, films, board games, etc. Outside or in an air conditioned lounge, the children can take full advantage of this serene summer environment. At the edge of the lagoon's turquoise waters, the Cocoon Bay offer is an invitation to laziness: large Balinese style beds, white net curtains and a dedicated waiter who, throughout the day, offers wellness cocktails or else Pinxtos Nomade

tapas by Marcel Ravin. Two packages, “the Cocoon Minuty” or “the Cocoon Dom Pérignon”, are offered for one of the best cocooning moments of summer!

## Le Sea Bay

In June 2017, the Monte-Carlo Bay Hotel& Resort offered a 700m2 guarded swimming area in the Larvotto nature reserve. To comply with Green Globe certification criteria, the area could welcome swimmers without endangering fauna and flora. Ten sun beds with Mediterranean island names have been set up by the water for lounging and enjoying food by Marcel Ravin. Several options on offer: for the season, for the day, or an all-inclusive formula for fully personalized service!

Daily rate: 330 euros one sun bed (2 people) / 380 euros in July and August

These modern treatments, which are high in quality, authenticity and respect for ancestral traditions, meet all the requirements and expectations of a demanding clientele. The Ritual stays, with the evocative names Rituals of the Orient, Rituals of Felicity for Two and Rituals of the Kingdom of Siam, offer exceptional moments where the refinement of the treatments is enriched by the quality of the products and the expertise in the protocol of the practitioners, who trained with Cinq Mondes. The art of wellness is given pride of place in the ancestral codes, with the Revitalising Tropical Ritual, the Ritual of the Maghreb and the Ritual of Siam, in particular, or more exclusively the Lulur Royal Ritual, which was specially designed for the Monte-Carlo Bay Hotel & Resort. The Japanese Bath of Aromas and Flowers, the Aromas and

V. Creative Gastronomy by Chef Ravin, Guide Michelin starred  
Michelin Star awarded Restaurant Blue Bay,

The 40-year-old chef Marcel Ravin, child of the Caribbean, took up the challenge of becoming the chef of this superb Monaco hotel, facing the Mediterranean. After leaving his native island to learn the art of cooking in Alsace, Brussels and Lyon, Marcel Ravin combines the culinary style of his Caribbean origins with the treasures of the Southern Land and Sea, so dear to the Monegasques.

Just like Alain Ducasse, born in the Landes and Monegasque by adoption, Marcel Ravin brought with him the memory of dishes from « over there»: the spices, the produce and the remarkable recipes from the Caribbean.

This baggage, that the Monte-Carlo Bay Chef calls his « mind palace», guided him on his path and shaped his identity, becoming the basis of his culinary identity. His atypical and authentic route is narrated in the autobiographical work “From one Rock to Another-Itinerary of a Chef” (Editions La Martinière). The author describes anecdotes from his childhood to his adult life and associates 60 recipes to each stage of his existence. It is the testimony of a life, a beautiful and moving confession prefaced by H.S.H Prince Albert of Monaco and the celebrated "Great Man", chef Alain Ducasse.

*Where our spirit meets your style*

In ten years, humanist Marcel Ravin has forged a mixed identity, fruit of his past and his personal Proust madeleines to the countless resources of the Côte d'Azur. In this manner, his culinary partition has gathered an audience of connoisseur gourmets, in his restaurant facing the sea at Blue Bay. A tenacity and creativity rewarded in 2015 with a Michelin star. Thanks to his great intuition, Marcel Ravin has successfully transferred his Caribbean repertoire to advantageously adapt the area the game of diverse influences that bestow to his cooking a delicate and delicious flavour structure. Scallops, mace and thyme creamy “blaff” sauce with squash and sweet potatoes; blue lobster from Brittany with chia seeds...pepper leaves, sprouts and wild herbs.

His signature dish: organic chicken egg with truffle, cassava and maracuja juice (*passion fruit in creole*), his current masterpiece; Sole filet stuffed, cider sabayon with Timut pepper with spinach, mushroom and green apple. His signature dessert: Variation of chocolate and passion fruit “Blue Bay Classical”: such creativity has propelled the Blue Bay restaurant to shine amongst the essential Gastronomy bastions of the Principality.

Cooking from the heart and with faith, eyes sparkling, Marcel Ravin is a risk taker, innovates, questions himself. His very deliberate and delicate gestures are reminiscent of a female kitchen because "I refer to my grandmother's methods". His passion and emotion push him forward to the spellbinding shores of fusion cuisine, so rare in Europe, and that simply must be discovered on Monegasque soil.

## Art of the table at Blue Bay

The Chef Marcel Ravin joins forces with a potter located in his native country of Martinique, to create bespoke dishes which tell a story. It required a year of collaboration for Peggy Desmeules and Marcel Ravin to succeed in designing unique pieces which bring the Chef's story to its essential point: evoking the remarkable Caribbean seabed in emotion and depth.

These veritable works of art lead us to imagine the fishing parties described by Chef Ravin "Water and fishing are part of the story of my beginnings of ti boug (child in Creole)... The sea belongs to my geographical and environmental roots... It is here that I learned to explore the depths of my imagination to better understand the visible transformation of the elements".

A mirror to the soul of the starred chef, this new table art delights the customers of the Blue Bay. Offering a variety under the four elements of the marine world: the dome plate, the sea urchin plate, the coral plate and the creel plate, the fifth element resembles the audacious cuisine which effortlessly invites itself into this dish to form one piece of art. And because Marcel Ravin likes precise gestures and grants importance to their beauty... In order to not impair the universe of the piece, just one motion from the head waiter is needed to turn the sculpture around which then transforms on the plate, signifying the start of the culinary voyage.
